

SOUND TECHNOLOGY

SAV-5 SE

High Efficiency
Full Range Loudspeaker

The SAV-5 SE is the perfect solution for those discerning listeners who demand a big performance without compromising quality. Its ideal as main speakers in a Hi-Fi or Home Theatre system...and doesn't break the budget.

Like all of the SAV products, the SAV-5 SE is shielded, providing the flexibility to position this elegantly styled loudspeaker close to a TV if required.

And because its efficient, it plays loud, yet retains the Sonique SAV pedigree, delivering an outstanding level of performance with dynamics, realism and bass response to maximise the potential of Hi-Fi and Home Theatre systems alike.

Use the SAV-5 SE to upgrade your main Hi-Fi or Home Theatre speakers or for the perfect Home Theatre solution, match it to other Sonique SAV loudspeakers in the range.

Standard Features Include:

- Advanced Driver Design
- Composite Mica Cones
- Rubber Roll Surrounds
- Double Magnet Motor Systems
- Ferro Fluid Hi-tech Tweeters
- Full Magnetic Shielding
- High Efficiency Design
- Dual Gold Plated Bi-wirable Terminals
- Tuned Low Noise Ported Enclosure

"The SAV-5 SE is an exciting speaker system in a myriad of ways that truly kicks some serious sonic derrière." entertainment@home Magazine.
