

SOUND TECHNOLOGY

Sonique-Boom

Dual Active/
Drone Subwoofer

The Sonique-Boom blends style and performance to create a new standard in Subwoofer design. Coupled with unique electronic/filter circuitry, this fully optioned subwoofer will integrate seamlessly - complimenting and enhancing the best and most advanced Hi-Fi and Home Theatre systems.

Its super inert cabinet, finished in real timber, houses a matched pair of the most advanced woofer/drone combinations available and electronics that has been finely tuned to achieve spectacular results.

Integral to the performance is the ability of the Extreme Long Stroke Woofers to deliver deep clean bass, with long term reliability and very low distortion, even at high sound pressure levels.

Standard Features Include:

- Matched Pair 10" Extra Long Stroke, High Linearity Woofer & Drone with Rubber Roll Surrounds
- Balanced Timber Veneered 27mm MDF Cabinet + 25mm Anti-resonant Baffles, Base and Braces
- Mineral Loaded Feet with Acoustic Rubber Isolating Pads
- Auto Sense ON/OFF
- Variable Phase Adjustment 0-180 Deg
- Inputs: Line Level & Speaker Level
- Outputs: Line Level & Speaker Level with High Pass Filter
- 100Hz 2nd Order Butterworth-Line Output
- Soft Clip and Compression Protection
- Drone Eliminates Port Noise
- Lead Lined-SE Option
- Adjustable Hardened Spikes-SE Option

"The Sonique-Boom is a superb high-end subwoofer that lays down a clear and uncompromising challenge to competitors.... catch me if you can!"

Richard Morgan
